2017/18 POTENTIAL CAPITAL SCHEMES**

As the capital budget for the Braintree Local Highway Panel has been fully committed, the potential schemes list represents all of the schemes for which future consideration can be given. The value of the schemes currently on the potential list stands at £307,000 with further value set to be added throughout the year, once feasibility studies and recent validations have been returned. Members are reminded that the costs supplied are estimates only and there is the possibility that a final scheme cost can change significantly dependant on issues which may arise during detailed design and construction.

Moving forward the panel have been tasked with developing next year's programme by bringing forward and reviewing new potential schemes. This year, although budget allocation will take place in the March meeting, the panel must have their scheme allocation recommendations in priority order by the January meeting in order for the design teams to programme the works as efficiently as possible to begin work within the first quarter of the new financial year.

1	Bridge Street, Bures - Feasibility for raised kerb	A topographical survey and feasibility study to investigate the potential for raising the kerb outside No3.	Water will often remain laying outside the property door after the rain has subsided for several days as there is nowhere for it to flow.	Bures Hamlet	LBRA152141	£5,000		<b>G</b>
2	Finchingfield Road, Steeple Bumpstead - Feasibility for layby	Feasibility for installation of a layby	The verge is highly used by hearses and those attending funerals, which is rutting the verge	Steeple Bumpstead	LBRA162020	£5,000	There are a number of issues with installing a parking bay here, the level difference from the edge of carriageway to the back of the verge is quite large and to install a parking bay would mean excavating a large amount of the verge, this could affect the brick wall that is there. There is also a BT cover which would need to be moved, this could add significantly to the delivery costs of the scheme. There is a bench in-situ as well and this would likely need to be removed to allow the bay to be installed.	<b>G</b>
3	Valentine Way and School Road, Silver End - Feasibility for 20mph zone/ limit	Feasibility for a 20mph zone or limit on these roads	Perception of speeding with no consideration given to the local Primary School	Silver End	LBRA162022	£3,000	Essex County Council are looking into the 20mph policy. Although the site would meet the criteria for a 20mph limit, the mean speeds from the surveys undertaken were 21.7mph and 19.7mph. This indicates that the road is already compliant with this limit and signage would not slow traffic further. The location in question is also a conservation area and repeater signs would constitute street clutter.	<b>V</b>

The location in question is also a conservation area and repeater signs would constitute street clutter.	V

Therefore, officers recommend we await the toucan installation before considering upgrading the current pedestrian refuge west of Augustus Way.	G
6	Yeldham Road, Sible Hedingham - Passing bays/ grasscrete	Install passing places /grasscrete	Vehicles are rutting the green when parking.	Sible Hedingham	LBRA162034	-	Against officer recommendation - There are already several parking bays along the road.	R

LOCAL HIGHWAY PANEL – 21<sup>ST</sup> SEPTEMBER 2017  
REPORT 3: HIGHWAYS RANGERS**

**RANGERS WORKS**

The process surrounding making requests for works by the Braintree Rangers has recently changed.

In line with a uniformed process across all twelve District / Borough and City Councils in Essex all Parishes and Councillors in Essex were emailed in April 2017 outlining the new way of working.

The main amendment being that requests are to be completed on the Rangers Request form supplied in the email and returned to the dedicated LHP Rangers email address instead of submitting the request using the online portal.

Requests will then be collated and submitted to the Rangers team on a monthly basis.

We will be unable to provide timescales for when specific requests will be attended to as the nature of the request and the time of year will dictate the priorities which will be assigned by the Rangers team.

The lists of requests and completion dates where appropriate will be reported back to the Panel at the quarterly LHP meetings.

The following report identifies the Rangers requests for the months of April, May, June, July, August and September.
