6.	<p>Approved Works Programme:</p> <p>Consideration was given to a report setting out a programme of schemes which the Panel had recommended for approval. The report provided an update on the current position of all schemes which had been recommended for inclusion in the 2017/18 programme of work. The report also included schemes which had been prioritised for implementation in 2018/19 as part of the rolling programme of work. The schemes denoted in ‘green’ had been completed; those denoted in ‘grey’ had been cancelled and could be removed from the schedule; and those denoted in ‘yellow’ were to provide an update to the Local Highways Panel.</p> <p>It was anticipated that the capital budget for Braintree Local Highways Panel for 2018/19 would be £407,789. In an update to the report, it was estimated that approximately £120,000 to £150,000 would be allocated to safer roads schemes (awaiting Cabinet Member approval) and £155,000 had been allocated to schemes in the rolling programme. A sum of £252,789 remained available for allocation.</p> <p>In discussing this Item, specific reference was made to the following matters:-</p> <p>2017/18 Programme LBRA155005 - Installation of raised kerbs, hardstanding and path to Crematorium, Crematorium, Halstead Road, High Garrett Cost:- £15,000</p> <p>It was noted, that on 8th January 2018 Essex County Council’s Cabinet Member for Highways had agreed to a top-up of £12,000 for this scheme and that it could now go ahead.</p>	

<p>2017/18 Programme LBRA162016 - Installation of tactile crossings at Francis Way j/w Broadway and improvement to drainage due to ponding in the vicinity of the crossing, Francis Way j/w Broadway, Silver End Cost:- £10,000 It was noted that this Scheme had been changed to 'design' work only in the current financial year due to complications with statutory undertakers' equipment on site. Implementation of the work would be included in the 2018/19 programme.</p> <p>2018/19 Rolling Programme LBRA162029 - Implementation of a Quiet Lane, Water Lane, Shalford LBRA162027 - Implementation of Quiet Lanes at three locations, Lamb Lane, Innham Hill and Southey Green, Sible Hedingham LBRA162033 - Implementation of a Quiet Lane, Woolpits Road, Great Saling It was noted that a Quiet Lanes trial was currently underway and that five sites had been chosen for implementation in the 2017/18 financial year. Specific funding had not been allocated to the scheme as it was estimated that it could cost in excess of £250,000. The planning application for the erection of a DIY store nearby had been determined by Braintree District Council's Planning Committee, subject to a Section 106 Agreement, the terms of which included the</p>

	<p>provision of land to facilitate the widening of the road. There was a possibility that the land could be made available as and when required.</p> <p>In discussing this scheme, Members of the Panel expressed concern about the current state of this stretch of road and the need for urgent maintenance work to be carried out in addition to the proposed improvement work. Whilst it was noted that the Local Highways Panel was responsible for improvement work only and that Essex Highways' maintenance service was responsible for maintenance, it was suggested that Essex County Council's Cabinet Member for Highways should be advised that Braintree District Council could possibly release New Homes Bonus funds to assist in financing the maintenance and/or improvement work.</p> <p>Members of the Panel agreed that this scheme and the associated maintenance requirements were a major priority for the Braintree District. It was agreed that Braintree District Council should be asked to consider releasing New Homes Bonus funds and that Essex County Council's Cabinet Member for Highways should be requested to consider if measures could be put in place by utilising possible New Homes Bonus funds to ease the current situation.</p> <p>Action By: Councillor James Abbott, in his capacity as a Braintree District Councillor for Silver End and Cressing Ward. <p>7.</p>	<p>Potential Schemes List:</p> <p>Consideration was given to a report containing a schedule of possible schemes. Members of the Panel were requested to identify schemes for inclusion in the 2018/19 programme of work. It was anticipated that the budget allocation in 2018/19 would be £407,789. In an update to the report, it was anticipated that £120,000 to £150,000 would be required for safer roads schemes and £155,000 for schemes in the rolling programme. On this basis, a sum of</p>
