

Project Completion Notification

Bridleway 19 High Easter drainage and surface Improvement

SCHEME OBJECTIVE: The existing route is part of the promoted route called The Essex Way. Its status is Bridleway. It provides an off-road walking, cycling and horse-riding opportunity for the local community and the public in general. It also forms a link to other footpaths.

The bridleway has become highly waterlogged and rutted and is very difficult to negotiate which could be preventing some use. Therefore the purpose of the scheme is to undertake improvement works (drainage and surfacing) to improve accessibility for all users.

SCHEME SUMMARY & OUTCOME: Infilling of ruts with suitable graded material and overlaying with road plannings. Clearance of ditches and grips and creation of new ones. The outcome of the works is a much improved surface of this byway which allows for much safer passage of users along it.
