

**The Essex County Council (Brentwood District) (Prohibition of Waiting, Loading and Stopping) and (On-Street Parking Places) (Civil Enforcement Area) Order 20\*\***

**Statement of Reasons**

The Addition of vehicular parking areas are going to be provided in accordance with the granted permission number 18/01851/BBC improving local parking availability.

In order to prevent obstructive parking, improve traffic flow and road safety, it is recommended that double yellow line parking restrictions be installed. The proposed 90 degree parking bays are to be introduced at various locations along Whittington Road to discourage vehicles from parking on the roads or the footways.

It also recommended that the existing advisory disabled parking bay outside number 98 Whittington Road, should be relocated and incorporated into the parking bay area and marked accordingly and the allotted space either side of the disabled parking bay marked appropriately to ensure that the area is kept clear of any obstructions.
