

The Essex County Council (City of Chelmsford) (Prohibition of Waiting, Loading and Stopping) and (On-Street Parking Places) (Civil Enforcement Area) (Amendment No.32) Order 202* and Signal Controlled Pedestrian Crossing - Navigation Road, Chelmsford and Signal Controlled Pedestrian Crossing - Springfield Road, Chelmsford

STATEMENT OF REASONS:

This order relates to the planning permission (16/01630/DOC/3) and section 106 agreement where Taylor Wimpey are required to deliver junction improvements as part of the Peninsula site development. This consists of signalising Springfield Road at its junction with Navigation Road, Chelmsford.

In order to facilitate the work, the following is due to be carried out, carriageway widening, resurfacing, traffic signals, which will include the installation of two signal-controlled crossings, as shown on the Traffic Regulation Plan.

To maintain safety at this junction it was felt necessary to include a No Entry Restriction at the Southern-most entry of property number 75 Springfield Road.

The implementation of the new Signal Crossings will introduce a safer and more reliable method of crossing on the junction of Navigation Road and Springfield Road, providing an improved environment for pedestrians.
