

**The Essex County Council (Hoe Mill Bridge, The Causeway, Ulting and
Woodham Walter, District of Maldon) (Width Restriction) Order 202***

Statement of Reasons

Since 2011, Hoe Mill Bridge has had a structural weight limit of 3 Tonnes however, no enforcement has occurred, which has caused the bridge to deteriorate faster than what was anticipated, resulting in the proposed Traffic Regulation Order to enforce the 2.0 metre width restriction.
