

**The Essex County Council (Old Shire Lane, Waltham Abbey)
(2.3 Metre Width Restriction) Order 202***

Statement of Reasons

Concerns have been raised regarding articulated trucks and lorries that seem to overflow from the lorry park near Junction 26 of the M25 motorway causing problems in the adjacent roads. The lorries try to turn and reverse in small estate roads causing damage to the road structure and street furniture. In order to resolve this matter, a width restriction is to be installed and the existing waiting restrictions are to be varied to prevent on street parking of all vehicles. This will allow sufficient space for vehicles to turn if they require.
