

# APPLICATION FOR A RAIL CROSSING EXTINGUISHMENT ORDER

## HIGHWAYS ACT 1980 TRANSPORT AND WORKS ACT 1992

REQUEST FOR A RAIL CROSSING DIVERSION ORDER TO BE MADE UNDER SECTION 118A OF THE HIGHWAYS ACT 1980 (INSERTED BY THE TRANSPORT AND WORKS ACT 1992).

The following questions are to be answered and the information and maps requested to be supplied by the applicant to Essex County Council which is requested to make the order. Tick the relevant box shown in some questions.

### 1. RAIL CROSSING TO BE EXTINGUISHED BY THE DIVERSION ORDER

- (a) Name and location of rail crossing (including grid reference and parish or district in which it is located).
- (b) Name(s) and number(s) of any footpaths and/or bridleways leading to the crossing to be extinguished. (Indicate whether footpath or bridleway).
- (c) Length in metres of any path or way to be extinguished.
- (d) Description of length of any path or way to be extinguished by reference to terminal points shown on attached plan which must be to a scale of not less than 1:2500 or, if no such plan is available, on the largest scale readily available.
- (e) List the name(s) and address(es) of the owners, lessees and occupiers of the land on either side of any path or way to be extinguished.
- (f) Have you obtained the written consent of every person having an interest in the land over which any path or way to be extinguished passes, in so far as such consent is needed.

YES	NO	NOT NEEDED
-----	----	------------

If YES, enclose all the written consents.

If NO, enclose all written consents that you now possess, and give particulars of those where consent has been refused or has yet to be obtained.

- (g) Are you prepared to enter into an agreement with the council in accordance with section 118A(5)?

YES	NO
-----	----

If NO, give details.

- (h) Give reasons for the proposed rail crossing diversion order (use separate sheets if necessary). Include information about:
- (i) the use currently made of the existing path, including numbers and types of users, and whether there are significant seasonal variations, giving the source for this information, together with details of any survey carried out (any circumstances preventing or inhibiting such use must also be mentioned);
  - (ii) the risk to the public of continuing to use the present crossing, and the circumstances that have given rise to the need to make the proposed order;
  - (iii) the effect of the extinguishment of the crossing and the creation of the proposed new path(s) or way(s) having regard to the convenience to users and the effect on any connecting rights of way and the network as a whole;
  - (iv) the opportunity for taking alternative action to remedy the problem such as a bridge or tunnel in place of the existing crossing or the carrying out of safety improvements to the existing crossing;
  - (v) the estimated cost of any practicable measures identified under (iv) above;
  - (vi) the barriers and/or signs that would need to be erected at the crossing and the points from which any path or way is to be extinguished or created, assuming the order is confirmed.

**2. NAMES AND ADDRESSES OF PUBLIC UTILITY UNDERTAKERS IN AREA**

(whether or not their apparatus is likely to be affected).

(a) Public gas supplier .....  
.....  
.....

(b) Public electricity supplier .....  
.....  
.....

(c) Water undertaker  
.....  
.....  
.....

(d) Sewerage undertaker (if different).....  
.....  
.....  
.....

(e) Public telecommunications operator.....  
.....  
.....  
.....

(f) Others (specify) .....  
.....  
.....  
.....

**3. MAPS AND PLANS**

List below all maps and plans accompanying this request, giving details of their scale and content. In addition to the map mentioned in paragraph 1(d), this must include a map of a scale not less than 1:25,000 or, if no such map is available, on the largest scale readily available, showing the crossing and any paths or ways to be extinguished or created, and any connecting paths or ways, within the context of the general rights of way network.

#### **4. OTHER INFORMATION**

Give any other information you consider relevant.

#### **5. THIS APPLICATION SHOULD BE ACCOMPANIED BY A SCALED PLAN TO THE INDICATING:-**

- any unaffected line of path/s.
- the section of path/s to be extinguished.

**DECLARATION**

I/We

- (a) understand that no authority for the extinguishment, obstruction or creation of any path or way in this request is conferred unless or until a Rail Crossing Diversion Order has been confirmed and come into force;
- (b) request that a Rail Crossing Diversion Order be made to stop up the crossing and any path or way described in Section 1 above; and
- (c) declare that, to the best of my/our knowledge and belief, all of the factual information included in this form is true and accurate.
- (d) declare that the highway to be stopped up is not obstructed and that it is fully available to the public unless legally closed by temporary Traffic Regulation Order (TTRO).
- (e) hereby agree that if a diversion/stopping up Order is made I/We will defray any compensation which becomes payable in consequence of the coming into operation of the Order and any expenses which are incurred in bringing the new site of the path into a fit condition for use by the public.
- (f) agree to comply with the terms and pay the charges for processing the Order as detailed in the attached terms and conditions and fee guide (Pages 6,7, 9 & 10) at the Assessment, Made Order and Confirmed Order stages as applicable. I am also aware that Essex County Council will not proceed with an application if the previous stages' costs remain outstanding.

Signed .....

Name in Capitals .....

On behalf of (name of railway or tramway operator) .....

Address .....  
.....  
.....

Position held .....

Date .....

Note: the Council will need all relevant information to enable them to proceed.

On completion, this form should be returned, together with the plans to:

## **Terms and Conditions – important – please read before signing**

I/We acknowledge that a non-refundable assessment fee of £520.00 will be invoiced when notification is received of the commencement of the processing of the application.

I/We acknowledge and undertake that:

1. The application will not proceed to the next stage until the assessment fee invoice has been paid.
2. The assessment fee amount paid covers the following costs:
  - (a) Land ownership verification
  - (b) determining the application i.e. accept, consider and issue decision
  - (c) initial site visit
  - (d) drawing up of a proposal plan
  - (e) pre-Order 'informal' consultations and negotiations
3. The total amount paid is currently a fixed fee of £3,196 (which includes the £520 above). Any additional orders required which may form part of the same scheme will cost a further £813 per order, and a fee of £376 will apply for the second and each additional path within any order.

The set fee includes the following costs:

  - (a) making an Order/s inc. legal costs and compiling final order plans (see above and PPO Fee Guide re additional Orders/paths).
  - (b) advertising and consultation of Orders
  - (c) confirmation of Orders inc. legal costs
  - (d) the certification of the diversion routes including site visits
  - (e) \* works costs are not included – see below

\*NB. Any works required to bring the new route into being will be paid by the applicant unless in exceptional circumstances other terms are agreed with the Council, this includes any work requiring execution on land other than that owned by the applicant to meet the legal schedule as set out in the conditions of the Order. The applicant will meet any costs incurred by the Council as a consequence of any alteration or replacement of any statutory undertaker's apparatus including telecommunications apparatus, arising from the effect of the Order together with any costs provided for under the 1980 Act. It may be possible in some circumstances for applicants to undertake or commission their own works to ECC design standards subject to certification by ECC. Please note: works connecting with highways with vehicular rights, such as carriageways and roads, can only be undertaken by ECC or their nominated contractors.

4. Non-ECC works: It must be noted please that it is your responsibility to check for any underground cables, pipes or any other structures before commencing the installation of any approved structure on the diverted route. You must contact the relevant Statutory Undertakers (i.e. BT, gas, water, electricity companies etc.) to ascertain whether they have apparatus within the area proposed to install the structure. If there is any objection from any of the relevant Statutory Undertakers then the highway authority must be informed and the installation must not proceed.
5. Repayment of monies received but not expended will only be made on verification by us that we are withdrawing the above application and will exclude the assessment fee and any other costs already incurred by ECC.
6. To pay on demand the cost at the made Order stage of £1,926 (plus additional costs as 3. above).
7. To pay on demand the remaining fees at the confirmation Order stage – usually £750 plus

works.

8. If objections lodged are not withdrawn and upon referral to the Secretary of State, they subsequently dismiss the Order, but not on the ground of invalidity, monies paid by the applicant for costs incurred up to the made Order stage are not refundable. Please be advised that opposed orders will only be forwarded to the Secretary of State for Rural Affairs at the discretion of the Highway Authority who will determine if the benefit of the order outweighs the costs to the tax payer of a referral.
9. To pay any compensation in respect of a diversion onto land owned by persons other than the applicant under provisions of Section 28 (as applied by Section 121) of the Highways Act 1980 which may become payable to a person whose interest in the land has depreciated or who has suffered damage by being disturbed in his enjoyment of land, in consequence of the coming into operation of the said Order.
10. To meet any costs, which the Council has to pay as a consequence of any alteration or replacement of any statutory undertaker's apparatus including telecommunications apparatus, arising from the effect of the order together with any costs provided for under the 1980 Act. This to include the removal or abandonment of any apparatus, including the cost of providing any telecom apparatus rendered useless under, in, on, over, along or across the path to be stopped up.
11. Where immediately before the date on which part of the public right of way is diverted, there is apparatus under, in, on, over, along or across it belonging to statutory undertakers for the purpose of carrying out their undertaking, the undertakers shall continue to have the same rights in respect of the apparatus as they then had.
12. I/We will notify the Highway Authority the name and address of any other person(s) known as having an interest in any of the land or premises affected by either the existing or proposed new routes; please complete the Requisition for Information form overleaf as appropriate.
13. Notwithstanding this order/s .....  
 (specify name of any applicable statutory undertakers) shall have the following rights over the land referred to in paragraph 1  
 namely:.....  
 (please provide details)

Is the land appertaining to the footpath registered with Land Registry?

If yes, provide registration numbers:

Please note that land that is not yet registered, whether on the current legal or proposed diversion route/s, will result in delays in the processing of your application. Essex Legal Services will not accept an instruction to make an order where landownership is not confirmed by Land Registry title plans and registers or alternative suitable proof (at ECC's discretion). Applicants are therefore urged to use the waiting list time to register any affected land parcels to prevent delays.

**I/We have read and agree the terms and conditions and these provide a legally binding agreement between Essex County Council and the applicant.**
