

Colchester Local Highway Panel Meeting Agenda

Date: Wednesday 18th June 2014

Time 18.00 hrs

Public Meeting - Grand Jury Room

Chair CC Member Anne Brown/Colchester Cllr Nick Barlow

Panel Members CC Member Kevin Bentley, CC Member Julie Young, CC Member Sue Lissimore, Colchester Cllr Lesley Scott-Boutell, Colchester Cllr Theresa Higgins, Colchester Cllr William Quince, Parish Cllr John Gili-Ross

Other Attendees ECC Officer Alan Lindsay Strategy & Engagement Manager, ECC Officer, Rob Macdonald Highways Liaison Officer, Secretariat: TBC

Remaining budget: £514,525

Time	Item	Lead:	Papers:
1	Welcome and Introductions – composition of the LHP	Chair	Verbal
2.	Declarations of Interest	All	Verbal
3.	Minutes of meeting held on 9th April 2014 to be agreed as correct record	Chair	Attached
4	University to Wivenhoe Cycle Link	All	Verbal
5	Casualty Reduction schemes	All	Verbal
6	Potential Schemes for consideration of Panel <ul style="list-style-type: none"> • Improvement schemes • Small Works • Bus Stop Improvements • Cycling • PROW 	All	Attached
7	Passenger Transport Infrastructure		
8.	Colchester District Approved Scheme List - Any queries please contact Rob.macdonald@essex.gov.uk	All	attached
9.	AOB	All	Verbal
10.	Date of next meetings: September 10 th Private December 3 rd Public March TBC 2015 Private	All	Verbal

Public question time:

Immediately after the minutes of the previous meeting have been approved there will be a period of up to 15 minutes when members of the public can speak for up to three minutes on items on the agenda. Members of public wishing to speak should contact Rob Macdonald by e-mail Local.HighwayPanels@essex.gov.uk or 0845 6037631 prior to the meeting.

ID	Location	Problem	Proposed Solution	Cost (£)
LCOL131020	B1022 Maldon Road j/w Braxted Park Road	pattern of collisions involving vehicles turning right into Braxted Park Road.	Undertake options study with RSE into junction redesign. Outline Design (£15,000) and studys (Ecology, Topo and trial holes) £12,000	£27,000
LCOL131025	Brinkley Grove roundabout with Gavin Way, Brinkley Grove	A study of the Personal Injury Collision data for the period from 01/05/2008 to 31/08/2013 at this location shows that there have been 4 Personal Injury Collisions, including one serious and three slight, resulting in one serious and three slight casualties.	i)Reposition the eastbound 'roundabout ahead' sign to diagram 610, so that it is located further west along Brinkley Grove Road; ii)Reposition the westbound 'roundabout ahead' sign to diagram 610, so that it is located further east along Brinkley Grove Road, prior to the bend in the road as indicated in photo 2. iii)Provide 'distance ahead to hazard' sub-plate to diagram 572 for each repositioned 'roundabout ahead' warning sign, iv)Undertaken vegetation removal on the westbound nearside of Brinkley Grove Road in order to improve the forward visibility of both the roundabout and 'roundabout ahead' warning sign. Preliminary Design and Investigation Cost £3,000 previously agreed	Detailed Design and Scheme Build Cost £13,000
LCOL131026	Gosbecks Road / Layer Road / Berechurch Hall Road	A study of the Personal Injury Collision data for the period from 01/05/2008 to 31/08/2013 at this location shows that there have been 7 Personal Injury Collisions, including two serious and five slight, resulting in two serious and six slight casualties.	i)Reduce the carriageway width on the south-west bound approach to Layer Road / Gosbecks Road roundabout to a single vehicle capacity at the give-way line, by increasing the central hatched areas adjacent to the centre island; ii)Reduce the carriageway width on the south-west bound approach to Layer Road / Berechurch Hall Road roundabout to a single vehicle capacity at the give-way line, but increasing the central hatched areas adjacent to the centre island; and iii) Increase the diameter of the mini roundabout dome markings and circulatory arrows to diagram 1003.4 at both mini roundabouts; iv)Refresh the give-way markings to diagram 1003.1 on each approach, v)Undertake carriageway resurfacing throughout both mini-roundabouts Preliminary Design and Investigation Cost £5,000 previously agreed	Detailed Design and Scheme Build Cost £32,000
LCOL131024	A1124 Essex Yeomanry Way / Eight Ash Green Interchange	A study of the Personal Injury Collision data for the period from 01/05/2008 to 31/08/2013 at this location shows that there have been 26 Personal Injury Collisions, including one serious and 25 slight, resulting in one serious and 30 slight casualties.	i) Install a new yellow backed chevron sign (with an increased yellow reflectivity border) for northbound road users on the A1124 approaching the roundabout circulatory. This sign is to be positioned further east within the roundabout island. ii)Remove vegetation on the A1124 northbound nearside approach to roundabout circulatory in order to increase the forward visibility of the nearside lane give-way markings. iii)Remove vegetation from within the southeast quadrant of the centre island of the roundabout. Preliminary Design and Investigation Cost £3,000 previously agreed	Detailed Design and Scheme Build Cost £15,500
LCOL141003	Colchester sites - yet to be confirmed	Preliminary Design and Investigation Cost for 2015/16 schemes	Design work and investigation required to produce schemes for 2015-16	£20,000
Total				£107,500

ID	Location	Scheme	Problem	Justification / Comments	Requested By	Estimated Cost (£)
LCOL132093	Abberton Road, Fingringhoe	buffer zone of 40mph - two terminal signs and junction warning sign and TRO	restricted visibility and speed	. A speed survey was carried out on Fri 31 st Jan 2014 at the speed limit change for a total duration of 7 days. It was found the average speed of north bound traffic was 46.3mph and the average speed for south bound traffic was 37.3mph. The survey shows that a buffer zone of 40mph is warranted.	Fingringhoe Parish Council	£3,000
LCOL142061	London Road Copford	Zebra Crossing	difficulties in crossing the busy London Road and wish to encourage children from both parts of the Village to use the recreational facilities	PV ² survey shows that there are adequate numbers of pedestrians crossing at this location to warrant a zebra crossing. There is an existing pedestrian refuge in the desired crossing point area. we should convert that for use as a zebra crossing. Street lighting would need to be increased in the area to conform to standards	Clr McLean and Easthorpe Parish Council	£35,000
LCOL132022	Roach Vale	20mph	Request for 20 mph in Roach Vale – speed results highlight low speeds. petition submitted at full council on 14 May 2013	Southbound traffic average speed over 7 days: 18.4mph, Northbound traffic average speed over 7 days: 17.8mph Good speed compliance however 20mph can be installed.	Clr Higgins	£12,200
LCOL132081	West Bergholt: Roads around Heathlands Primary School	To install 20mph limits	The local community are of the opinion that a formal 20mph limit would have the effect of further ensuring that motorists notice and take heed of the potential dangers.	Speed survey data shows that average speeds fall below 20mph in the area	Clr Willets	£7,000

ID	Location	Scheme	Problem	Justification / Comments	Requested By	Estimated Cost (£)
LCOL142024	Bowes Road and Broome Grove, Wivenhoe	20 mph	There is a high presence of vulnerable road users at both Bowes Road and Broome Grove. Neither school has a crossing patrol immediately outside the schools.	BOWES ROAD : Westbound mean speed is 21.4 mph, Eastbound mean speed is 21.3 mph - <u>BROOME GROVE</u> : Northbound mean speed is 21.5 mph, Southbound mean speed is 19.1 mph - The mean speeds for the areas suggest that the speed of vehicles falls within the boundaries of a 20 mph zone.	Cllr Kay, Wivenhoe Town Council	£10,000
LCOL142002	London Rd junction Lucy Lane South	Redesign very busy area - feasibility study	perceived accident hot spot—numerous shunts as well as witness by the school Crossing Patrol	It is recommended that a feasibility study be carried out. SA2000 would need to be involved with regards to the possibility of traffic signals as they would need to do modelling work to see how effective a signalled junction would be and what the effects would be on localised congestion.	Cllr Scott-Boutell	£5,000
LCOL144002	North End of Brinkley Grove Road/Mill Road/	Feasibility study into Safe cycle route from Myland School along Mill Road to Brinkley Grove Road for the Gilbert School.	safety concerns	It is recommended that a feasibility study is carried out with regard to the potential of a cycle route along Brinkley Grove road and looking into the possibility of providing something safe for cyclists to use along Mill Road although this may be harder to achieve along this busy road as space is limited. Footway works between Squirrel Field and Bedford Road cannot be carried out as it is on country parks land.	Cllr Goss	£4,000

ID	Location	Scheme	Problem	Justification / Comments	Requested By	Estimated Cost (£)
LCOL134006	Cymbeline Way	Surface applied balotine in the lining material to increase reflectivity	difficult to see cycle route	The method of applying the lining will likely be hand laid so it is possible that an even, straight line would be hard to achieve. The panel should consider that any lining installed will be a future maintenance liability as the edges of the verge do encroach onto the track and may cover the lining. The lining may become slippery when wet	Cllr Scott-Boutell	£6,000
LCOL142026	Meyrick Crescent	speed humps (x6)	it is felt that traffic passes by much too fast - speeding traffic and school children use this road.	A speed survey has been requested to ensure that speeding cars are an issue. Residents should be consulted before design is carried out. They should be made aware that installing speed humps will increase noise in the area and may damage properties over time.	Cllr Harris	£35,000
LCOL142018	B1023 through Inworth	Installation of village Gateways	The Parish feel that this particular area is an 'accident black spot' and enhancing the gateway entrances would be a great assistance to changing driver behaviour.	it is also recommended that the signage be raised above the existing level so as to avoid encroachment by future vegetation growth.	Messing cum Inworth Parish Council	£11,000

ID	Location	Scheme	Problem	Justification / Comments	Requested By	Estimated Cost (£)
LCOL142008	Wellesley Road	to remove brick central reservation and install an anti-pedestrian barrier:	pedestrians are crossing the dual carriageway at the end of Wellesley Road	As the brick central reservation does not run along a straight line it is recommended to be removed, along with the bushes in the central reservation. There are stumps present in the central reservation and this will add to the costs, it is unclear as to what effect it will have on the overall costs of the scheme. Estimated cost to remove brick central reservation: £25,000, Estimated cost of installing an anti-pedestrian barrier: £20,000 Design Costs: £5,000 (including increased Traffic management costs)	Cllr Lissimore	£50,000
LCOL132085	Butt Road (coming up either Beaconsfield or Salisbury Aves.)	Zebra Crossing	no crossing point	Top up required due to changes to the street lighting	Cllr Sue Lissimore /Councillor Nick Cope/Cllr Hunt	£11,000
LCOL132042	Drury Arms, Shrub End, Colchester	extension of traffic island, repositioning KLB and additional lining improvements to assist drivers in aligning long vehicles.	long vehicles turning right from Layer Road	Evidence of kerbing damaged caused by overrunning vehicles. Feasibility waiting for the results of a topo survey - implementation estimate	Cllr Lucas	£6,500

ID	Location	Scheme	Problem	Justification / Comments	Requested By	Estimated Cost (£)
LCOL132040	Straight Road/Langham Road/Pepper Road Junction	Add Cross Road sign, 2) Add carriageway SLOW marking	Project to stop dangerous emerge incidents onto Straight Road Boxted	The matter was discussed at Neighbourhood Development Plan Committee meeting and it was agreed that these are dangerous junctions which need attention. Design previously recommended	Boxted Parish Council	£6,200
LCOL132084	Severalls Lane near the Honorius drive bus stop	Pedestrian Refuge & Footway Works - Design previously approved	number of residents concerned about difficulties crossing the road, Local residents believe that highway safety is compromised by the lack of safe crossing	October 2103; Survey analysis – 12hr Mean Speed is 35.0mph and 12hr 85%ile speed is 40.5mph, October 2103 PV ² analysis; Severalls Lane near Honorius Drive – PV2 crossing criteria not met due to high speeds; however a pedestrian refuge can be installed. County Councillor Anne Turrell supports this application	Cllr Oxford	£25,000
LCOL132036	Stanway Garage Zebra Crossing, London Road, Stanway	Add Pedestrian Crossing signs. Design Complete	visibility and crossing	Site location with good visibility. Top up required - owing receipt of the stats I will need to undertake trial hole for this scheme along with the sign needing to mounted on a separate pole (as it can not be attached to the lamp column)	Cllr Scott-Boutell	£1,100

ID	Location	Scheme	Problem	Justification / Comments	Requested By	Estimated Cost (£)
LCOL142 063	Layer Bridge, Layer de la Haye	advertising and then implementation (pending the statutory process) of a reduction in speed limit and feasibility and design to improve awareness of the Bridge and bend and the need to check speeds further	speed of vehicles. number of accidents including driving into the property of people along the road	The speed survey was undertaken 340m south of Berechurch Road and shows average speeds to be 41 MPH. This indicates that drivers feel that 40mph is an appropriate speed to be travelled. I would like to undertake a speed survey at the southern end just to ensure drivers have not increased their speeds as we have had several collisions on the bridge structure in the last few years and this information will help inform what improvements should be made to ensure drivers are informed of the need to slow and take the bend with the bridge at a slower speed	Cllr Bentley	£20,000
LCOL133 001	Land Lane, Colchester	dropped kerb, there is a dropped kerb at the end of Land Lane, there is no dropped kerb opposite	people with walking aids are faced with the difficulty of negotiating the kerb on a difficult bend and those with mobility scooters are forced to drive along the roadway rather than the footpath	Design previously agreed	Cllr Higgins	£3,250
LCOL142 064	Tesco at The Hythe Colchester	investigation into the signals and how they are operating	concerns raised about the sequences of lights and congestion	an initial check completed and confirmation that the site is operating as designed without faults . we need to fully investigate the situation and understand any potential impact	Cllr Young	£2,000
					Total:	£253,250

ID	Location	Scheme	Other issues / comments	Requested By	Estimated Cost
LCOL142019	Mill Road towards Maximus Drive.	speed survey for VAS		Cllr Goss	£210
LCOL142021	Goojerat Road/ Circular Road West	PV2 for crossing consideration		Cllr Barton	£890
LCOL142022	A1124 Eight Ash Green	speed survey for VAS		Cllr Harrington	£210
LCOL142026	Meyrick Crescent	speed survey for traffic calming consideration		Cllr Harris	£210
LCOL142027	Spring Lane & cul-de-sacs off , Eight Ash green	two speed surveys for 20 mph consideration		Cllr Willits	£420
LCOL142029	Berechurch Road	speed survey for traffic calming consideration	from the junction with Gurdon Road to junction with Chariot Drive	Cllr Harris and Sir Bob Russell MP	£210
LCOL142059	Berechurch Road / Chariot Drive	PV2 for crossing consideration		Cllr Harris	£890
LCOL142062	Broman's Road, East Mersea	speed survey for 20mph consideration		Cllr Bentley	£210
LCOL142065	Whitehall Hall Road/Old Heath road	PV2 for crossing consideration		Cllr Young	£890

Total:	£4,140
---------------	---------------

ID	Location	Details of Scheme	Issues / Comments / Reason for Scheme	Scheme Origination	Estimated Cost
LCOL14501	Sainsbury store, Stanway 3308502A	2 back to back RTPI signs o/s the new Sainsbury store Stanway, visible from each passenger shelter.	new bus layby and shelter due to volume of passenger RTPI improve the stop and facilities	Passenger Transport	£17,000
LCOL145014	Iceni way	request from 2 bay passenger shelter at this location	large number of residents waiting for a bus with no protection from the elements	Sir Bob Russell	£5,000
Total					£22,000

ID		Location	Scheme	Estimated Cost (£)
1	LCOL144003	The Thomas Lord Audley School	60 cycle compound. The cycle scheme at The Thomas Lord Audley School has been a huge success increasing numbers by over 600% Request for another cycle compound as current shelter is bursting with bikes	£11,075

ID	Location	Scheme	Problem	Justification / Comments	Request ed By	Cost (£)
LCOL1 48002	Junction of East Donyland FP2 and 2Colchester FP163	Install bridge footbridge (6-8 metres) and boardwalk and steps approx. 50 metres	As this is a chronically wet area standing mud over a foot deep discourages even the most hardy walkers from attempting to follow this PROW which should be an important link between Colchester and East Donyland	Reinstating the crossing over the brook will help to join up areas that are extremely well used by local walkers	PROW Team	£7,500
LCOL1 48003	Birch - Footpath 19, Bridleway 23, Bridleway 36, Bridleway 35	Drainage, vegetation clearance, bridge, reinstatement or diversion	very poor drainage caused by local springs and heavy standing mud for much of the year. This has led to accidents and harm to walkers and riders.	To reinstate the official line would require installing a surface or boardwalk that would accommodate horses as well as significant vegetation clearance. Improvements to this network would greatly enhance an extremely popular area which would provide excellent walks and rides in a wooded area. At the moment this can only be enjoyed during a few summer months. These PROW link in to paths that connect with the SUSTRANS network as well as routes to Colchester Zoo.	PROW Team	£10,000

Total £17,500
