MALDON DISTRICT LOCAL HIGHWAYS PANEL MEETING – 13 MARCH 2015

Council Chamber, Maldon District Council Offices, Princes Road, Maldon – at 9.00am

MINUTES

Present:

Representing Essex County Council – Councillor R L Bass (Chairman), R G Boyce and Mrs P A Channer (arrived later)

Representing Maldon District Council – Councillors A J Cussen (arrived later), F A Delderfield, Miss M R Lewis, R Pratt (Vice-Chairman) and Mrs M Thompson

Officers: J Simmons (Liaison Officer), Ms J Gudka, Ms E Brown and Ms S Church, Essex Highways, Essex County Council.

1. Apologies for absence

An apology for absence was received from Councillor Rev A E J Shrimpton.

2. Minutes of Meeting – 5 December 2014

RESOLVED that the Minutes of the meeting of the Panel held on 5 December 2014 be approved and confirmed.

3. Officer Presentation – Highways Pilot Enforcement Project

The Panel received a report by the Enforcement Manager and Senior Legal Advisor which outlined the Highways Pilot Enforcement Project for Maldon. The project went live at the end of November 2014 and was primarily aimed at the control and maintenance of roadside vegetation. Officers reminded the Panel that this project was intended to be a trial. A full update would be provided to the Panel in six months' time, with an interim update to be prepared for the next Panel meeting.

It was suggested that it would be useful for the information to be be shared, in particular with Parish and Town Councils. It was agreed that the personal information of Officers should be removed before the report was made available to Members and that all enquires relating to the project and requests/reports should be made through the Highways portal at Essex County Council.

4. Approved Works Programme

The Approved Works Programme, an updated version of which was circulated to Panel Members, contained scheme descriptions and allocated budgets for schemes. Appendix 1 to these Minutes shows the Approved Works Programme and scheme status as discussed at the meeting. Also shown in the Appendix are details of discussions held relating to individual schemes.

It was noted that those schemes shaded grey were completed and would be removed from the programme and the Red, Amber, Green (RAG) status column was an

indication as to the confidence in achieving the scheduled end date. Where an update had been provided by Officers, this was shaded in Yellow.

With regard to items 16 – Maypole Road, Heybridge and 17 – B1026 Goldhanger Road, Heybridge near Spicketts Brook, it was agreed that in view of the lack of progress these two schemes be carried forward to 2015/16, with an urgent status report on item 17 to be sent to Panel Members. – an urgent status report was requested in order that Members could provide residents with feeback. With regard to item number 23 – Charity Farm Bends, Maldon Road, Goldhanger, a status report was requested for circulation to the Panel and also to the relevant Parish Council, to be considered further at the next Panel meeting

Councillor A J Cussen joined the meeting at this point.

5. Potential Schemes List 2015 / 16

The Panel received a summary of the funding available and the costs of schemes on the Potential Schemes List. Appendix 2 to these Minutes shows the Potential Schemes List and scheme status as discussed at the meeting.

The Chairman drew attention to the need to consider as a matter of emergency a discretionary scheme to provide lighting at the A414 Heybridge Underpass in view of a recent serious attack in that vicinity. He confirmed that the existing ineffective lighting was not maintained by Essex County Council. He also suggested that a dialogue be opened between Essex County Council (ECC), Maldon District Council (MDC), Heybridge Borough Council (HBC) and Maldon and Blackwater Navigation Company? (MBNC) to try to establish a scheme of management regarding the vegetation surrounding the area.

The Panel agreed that lighting for the underpass would be put on the Potential Schemes List with a nominal allocaton of £5k and be moved to the Approved Works Programme to be actioned as soon as possible. It was also agreed to include at the request of Councillor Rev A E J Shrimpton a scheme for a new metal bus shelter at Randolph Close, Maldon (£5k allocated).

In reply to a question the Liaison Officer confirmed that for future meetings, the scheme request originator would be added as a separate column on the Potential Schemes List.

Councillor Mrs P A Channer arrived at this time in the meeting.

6. Automatic Traffic Counts Summary – March 2015

The Panel received and noted the summary of the automatic traffic counts that had recently been carried out. Full survey data is available if Panel Members require it.

7. Scheme Feasibility Studies / Design / Briefing Notes

The Panel received details of feasibility studies, design or briefing notes on the following schemes, which informed their decisions as shown below. Further enquiries are to be made relating to measuring the width of the road and a report submitted to the next Panel meeting.

• LMAL142015 – B1010 Burnham on Crouch to Cold Norton – Technical Route Review.

8. Section 106 Highways Contributions

The Panel received details of survey data on five Section 106 Highways Contributions three at Fullbridge Road, Maldon, one at Tolleshunt Major and one at Wycke Hill. This would inform the decisions to be made on these requests included in the Potential Schemes List.

9. Highway Rangers Work Summary January 2015

The Panel received a summary of the work undertaken by the Highways Rangers for January 2015 and the contents therein were noted.

10. Items raised by Panel Members

Councillor R Pratt requested that consideration be given to the provision of pedestrian crossing along Southminster Road, Burnham on Crouch between the Maldon Road junction and the Church. The site did not however qualify for a school crossing patrol. It was agreed that this be added to the Potential Schemes List so that at least a Pedestrian Conflict Survey could be undertaken.

The meeting closed at 10.44 a.m.

COUNCILLOR R L BASS CHAIRMAN

Maldon District Local Highways Panel - Approved Works (Update - March 2015)

HIGHWAYS PILOT ENFORCEMENT PROJECT - MALDON

Local Highway Panel Update - 13 March 2015

Jennifer Gudka – Enforcement Manager Emma Brown – Senior Legal Advisor

In the first instance any problems relating to the highway should be reported in the normal way via the channels below; if required they will be referred to the Enforcement team:

<u>Highway.enquiries@essex.gov.uk</u> or online http://www.essexhighways.org/Report-a-problem.aspx

The pilot project has been running since 24 November 2014, so far there has been significant work on setting up the correct enforcement framework, this has included:

- Drafting a Highways Enforcement Policy to ensure a framework under which enforcement
 cases can be consistently prioritised whilst providing a document to the public that gives them
 an expectation of how ECC will approach enforcement. The adoption of a policy will also
 address potential criticism from courts regarding lack of processes and policy if enforcement
 action results in court action.
- Work has begun on looking at the various processes that will sit under the umbrella Enforcement Policy to ensure they follow a proper process both operationally and legally. This will enable progression of any case to court efficiently. For example the vegetation process has been reviewed, altered, and training has been given to operational staff to ensure the work is admissible to court right from the start. This will enable more effective enforcement.

Going forward, different work streams will also be addressed; watercourse issues (blocked ditches etc) obstructions and encroachments.

- An interrogation of our records, (enquiries and defects logged), identified vegetation and drainage as the biggest areas in need of enforcement in Maldon. Therefore these areas are our main focus at the moment.
- The drafted Highway Authority Enforcement Policy deals with enforcement under the Highways Act 1980. In terms of effectively enforcing drainage issues this act is limited in terms of what the Highway Authority can achieve, for example under the Highways Act we cannot undertake works and recharge the costs of these to the landowner, unless there is obstruction to a ECC laid 'drain'.
- The Land Drainage Act 1991 affords an effective tool to enforce drainage issues, at the present time the powers sit with the Flood Authority; not the Highway Authority. One of the current tasks of this pilot project is to secure a limited and focused delegation to use these powers; dialogue is currently ongoing with the Flood Authority to progress this.

It should be noted that formal enforcement can only be considered where harm is being caused to the highway (where it is causing flooding to the highway).

In instances where a blocked ditch is noted (that is not causing a flooding issue) ECC will educate landowners to their responsibilities under "riparian ownership"

 Developing good working relationship with other parties is vital to the success of the project – we are working closely with the ECC Flood Management Team; successful delegation of the provisions under the Land Drainage Act will further cement this as ongoing dialogue will be required on all cases requiring enforcement.

A meeting with the Environmental Team at Maldon District Council has been arranged for 23 March to discuss any outstanding issues.

 Liaison and education will always be the preferred approach, all efforts will be made with landowners to bring about compliance, whatever the issue - court action will remain a last resort.

With drainage issues, education tools such as the Guide to Ordinary Watercourse Maintenance booklet are routinely used to advise and educate landowners of responsibilities.

Current Cases

These are all at various stages of investigation, some cases appear straightforward, however some cases will require further research and involve multiple landowners.

Road	Parish	Issue
Barnhall Road	Tolleshunt Knights	Drainage
Burnham Road	Latchingdon	Drainage
London Road	Maldon	Obstruction
Colchester Road	Heybridge	Vegetation
Birchwood Road	Purleigh	Drainage
Crouchmans Farm Road	Ulting	Drainage
Southminster Road	Burnham	Drainage
Crouchmans Farm Road	Ulting	Further drainage issue
Crouchmans Farm Road	Ulting	Further drainage issue
Kelvedon Road	Little Braxted	Obstruction
Chelmsford Road	Purleigh	Drainage
Tollesbury Road	Tollesbury	Drainage
Coronation Road	Burnham	Drainage
Scotts Hill	Southminster	Vegetation
Latchingdon Road	Cold Norton	Drainage
Purleigh Wash	Purleigh	Drainage

There are a further twelve defects raised by highway inspectors since the start of the year for blocked ditches, these are likely to be a mix of cases that require education in the first instance

In addition advice has been given to colleagues on cases that fall outside of the Maldon District and the Pilot Project remit.

Maldon District Council have indicated a further eight drainage issues and a number of vegetation enquiries, some of which may be suitable for enforcement, or to be passed to the Drainage team / Customer Service Team for updates.

Two cases has been resolved in Fambridge Road, Cold Norton, where residents have cleared blocked culverts under their driveway access and cleared the ditches fronting their property (34 metres in total).
