The proposal for the installation of kerbed build-outs with reflective bollards at the ends of the Controlled Parking Zone bay could be assessed. However, it is crucial to address drainage around the build-outs during the design buildability stage. Additionally, a Swept Path Analysis will also be necessary to evaluate and calculate the space required for vehicle turning maneuvers into Rose Lane effectively.	G

Additionally, the implementation of x18 marker posts to be installed to prevent vehicles from parking on the grassed verge.	G
16	Great Mistley, Basildon - Traffic Management Improvements	Complete a design from the suggestions given in the feasibility study	Basildon Westley Heights	Basildon Unparished	Traffic Management	Design	LBAS242002	£8,000	Now that the feasibility study has been completed it has been suggested that a design-only scheme is funded by the panel to further evaluate the package of improvements in more detail. 1	High Road, Laindon - Signalised crossing	Detailed design of signalised crossing that was previously subject to a feasibility study	Basildon Westley Heights	Basildon Unparished	Walking	Design	LBAS183007	£25,000	A street lighting assessment has been requested as part of the ongoing design process. Once this assessment is completed, the design team will be able to finalize the remaining design work for the scheme.	G
2	London Road, Basildon - Walking	Request for a Zebra Crossing outside Vange Primary school as children are currently crossing the road with no safe crossing point.	Basildon Westley Heights	Basildon Unparished	Walking	Validation (Does not meet criteria)	LBAS233007	N/A	PV2 survey does not meet the criteria for a crossing upgrade. A feasibility study has now been requested to assess all other safety improvements and see what can be done to improve pedestrian safety at this location.	R
3	London Road, jw/w Moss Drive, Basildon - Zebra Crossing	Vehicles ignoring the zebra crossing across London Road. Residents cross this busy road to visit the G.P., chemist and the busy mini-market. Plus some drivers are travelling at speed.	Basildon Westley Heights	Basildon Unparished	Walking	Validation (Does not meet criteria)	LBAS233008	N/A	Validation - PV2 returned value of 0.305.10^8 and below the 0.7x10^8 needed for a signalised crossing upgrade. Additionally speeds were recorded, Northbound 26.6mph and Southbound 29.2mph. Based upon DFT guidelines, the recorded speed would be deemed to be good compliance with the posted 30mph speed limit provided here at this location.	R
4	Nightingales, Basildon - Footway Improvements	Request for the installation of either concrete or grasscrete to provide easier access to the pathway. This initiative aims to enhance convenience and accessibility for residents using the newly installed disabled parking bay and provide a safer walking route to the properties on the other side of the grassed area, which is difficult to use due to mobility challenges.	Basildon Westley Heights	Basildon Unparished	Walking	Validation (Does not meet criteria)	LBAS233016	N/A	As the resident is yet to apply for the disabled parking space, we would not progress with this validation assessment any further until the parking bay is in place. Once this is complete we can then revisit the validation.	R
5	Great Gregorie, Basildon - Footway Improvements	Request for a new path as a desire line has formed and turned into a muddy rut due to frequent use.
